PROFILE INFO

I'm a web developer and computer science graduate who loves solving complex problems. I'm passionate about web development and pushing myself to learn new technologies. I'm excited to be a part of this community and keep learning and growing.

WORK EXPERIENCE

Application Developer/Web Developer   **Jan 30, 2023 - Present**
Salam University, Kabul, Afghanistan

- Responsible for maintaining and improving the university's official website using Tailwind CSS, Ajax, and Laravel.
- Fixed bugs and added new features to enhance the website's functionality and user experience.
- Developed and maintained the desktop application (MIS) using C# Winforms and SQL Server.
- Collaborated with cross-functional teams to identify and prioritize software issues and feature requests.
- Conducted thorough testing and quality assurance to ensure software stability and reliability.
- Provided technical support and training to end-users to ensure effective use of software systems.

Web Developer   **2020 - 2022**
N Technologies

- Gather and refine specifications and requirements based on technical needs.
- Create wireframes, website layouts, and user interfaces with Tailwind CSS and standard HTML and CSS.
- Developed Multi-user web applications using Django and Laravel web frameworks
- Add unit testing for the web applications to ensure all applications work according to user needs.
- Takes care of application security while developing web applications, so they are not vulnerable to security threads.

Web Designer
CHILD EDUCATION SUPPORTING FOUNDATION (CESF)

2019 - 2020

- Gather and refine specifications and requirements based on technical needs.
- Create wireframes, website layouts, and user interfaces with Bootstrap and standard HTML and CSS.
- Make web applications fully responsive to all devices to achieve user satisfaction.
- Add new features according to organization needs.
